

AURIZON NSW COAL 2013 EA UPDATE NO 2. MEMBERS INFORMATION NEWSLETTER JUNE 2013

EA NEGOTIATIONS

Your Negotiators have met with the representatives from Aurizon in Newcastle on 4th & 5th, 18th & 19th June 2013 to formally begin negotiations for a replacement Enterprise Agreement for the INTERAIL AUSTRALIA (COAL OPERATIONS –NSW) ENTERPRISE AGREEMENT 2010 which will expiry on 31st October 2013.

Further meetings are planned for the 2nd & 3rd of July 2013.

To date we have exchanged log of claims with the company and our first 2 days were to evaluate and ask for clarification around those claims.

On our second 2 days we have commenced negotiations and highlighted clauses that are the same or similar to the current clause that neither party has sought to alter.

We have also identified clauses that we are apart on and will need further discussions.

We are proposing to get together with our steering committee next week to discuss the current position so that they can answer any questions you may have and provide feedback to your negotiators.

We anticipate that after the next round of negotiations we will convene depot meetings to discuss the negotiations and bring you all up to speed.
