# AURIZON MEMBERS' NEWSFLASH #7

## Aurizon's non-union agreement **VOTED DOWN**

**The members have made their voices heard by voting down the company's non-union agreement.**

Well done for standing together and saying that there are fundamental conditions that we will not trade off. **But the real work has only just begun.**

Now that we have sent this clear message, management need to start taking our concerns seriously.

And we hope that Aurizon begin treating the members with respect by negotiating in a more reasonable manner, rather than making demands and expecting you and your negotiating committee to comply.

We will keep you all informed about the process as it goes along and collectively we will continue to fight for decent conditions in this agreement.

Your Union is determined to keep working with you for a fair and reasonable outcome for Your EA.

Please call the RTBU National Office on 02 8209 6099 if you have any feedback or questions.
