

'Stop the Sell Off' MASS MEETING

ATTENTION ALL ELECTRICITY WORKERS & SUPPORTERS

Town Hall style mass meetings have been organised in major centres to provide electricity industry workers the opportunity to hear where local MP's stand on the sell off of the NSW electricity network.

Six meetings will be held between 25 October and 27 October and all members and non members are invited to attend these important meetings.

Show your support for the campaign. Attend your local meeting and hear first hand what the privatisation of the NSW electricity sector could mean for you.
