FREIGHTLINER COAL – LIFT UP LAY BACK DISPUTE

Yesterday 14/12/2016 a conciliation meeting was held between Freightliner and your Union in the Fair Work Commission. The matter was unable to be resolved and has been referred to another Commissioner.

It is most likely a further conciliation will take place and if resolution is not possible the matter would then be set to have an interpretation made by the Fair Work Commission.

How the matter is to progress and the timing of any further conciliation and or interpretation being made is now up to the FWC and we will keep members advised as developments occur.
