October 21, 2017

Dear Pacific National Coal and Bulk members of RTBU,

On behalf of 14 affiliated unions from 11 countries of International Center for Labor Solidarity (ICLS), I send this message to show international solidarity to Pacific National Coal and Bulk members of RTBU.

ICLS fully support of your strike action to demand fair right for workers. We ICLS held labor forum in Tokyo, Japan last September. We discussed on many issues in this forum. The main theme of this forum is "Growing union power with young workers to fight inequality through improved organisation and unity".

RTBU sent delegates Ms. Samantha Simonetis, Mr. Mark Diamond and young delegate Mr. Farren Campbell. They suggested many opinion to develop ICLS movement and organize young workers.

We ICLS believe hearing good news after your strike action. Also we believe this action will make stronger RTBU, strengthen solidarity of RTBU and make strong young workers!

Let's fight together to develop our working condition to secure for workers!

Edgar John P. Bilayon
Chairman
