SSR EA Tour

Members are advised that as the Parties have been unable to reach agreement at the table for a replacement EA, the Company has advised that they will be taking their Agreement out to employees.

As a result the RTBU cannot agree to the terms of the new EA in their entirety including:

- Wage increases, and
- Duration and period for Roster Days Off,

It will now be up to members/employees to either vote for or against the Agreement, with a no vote meaning we seek to continue to negotiate with the Company and or make application for a Protected Action Ballot for industrial action should members indicate that they are prepare to take action if required. A majority yes vote will mean members/employees will continue to be covered by an agreement below industry standards.

The RTBU has decided to participate in the tour to explain all changes from your last Enterprise Agreement, so that you can understand what has been achieved so far and what items/matters the RTBU believes are still not agreed.

Please see the blow list of locations and times of all the meetings.
