# **BETTER SAFETY FOR RAIL WORKERS**

## ***NOT MORE SURVEILLANCE***

**RTBU**

**The best way to improve safety is to provide support for employees and invest in safety measures and systems to prevent accidents. That's why we are fighting for:**

- Better rostering
- Better working environments
- Placement of pre-engineering devices rather than post incident recording devices (given that most Locomotives/EMUs/DMUs are equipped with Data/Event recorders that supply a more robust record of events)
- Stringent, clear and transparent controls over the use of any data collected from forward facing recording devices

**MAKE YOUR VOICE HEARD. HAVE YOUR SAY AT [WWW.RTBU.ORG.AU/SAFETY\\_NOT\\_SURVEILLANCE](http://WWW.RTBU.ORG.AU/SAFETY_NOT_SURVEILLANCE)**
