

# Southern Shorthaul Members EA Survey

The Locomotive Division is conducting this Survey to identify changes members would like to see made to your Union Collective Agreement from the current agreement.

Whilst a lot of members at Depots have already indicated they are prepared to assist, a successful outcome is only achieved through UNITED action and participation by as many members as possible. If space below is insufficient, please attach additional pages.

As always, members will be kept informed by:

- ✓ Seeking your help to develop and endorse a log of claims.
- ✓ Helping to circulate newsletters about the progress of the campaign.
- ✓ Attending meetings called to seek your endorsement and / or direction on the issues.
