

# RTBU NSW LOCO DIVISION NEWSFLASH

February 6, 2025

## Same Job Same Pay

Last week we reported on progress regarding Same Job Same pay.

The fight for equal pay for Labour Hire employees has been going for well over a decade. Some of us remember when Pacific National called their delegates in and told them they were bringing in supplementary Labour hire for a short period to assist in providing additional leave.

We now know this was just a straight out lie. What we instead got was workers unwittingly being ripped off and treated as second class.

Thankfully this is now behind us. Its now time to Celebrate this major workplace achievement and ensure this piece of Howard legacy never returns!

Your RTBU Locomotive Division has organized an event in the Hunter to celebrate this milestone. A flyer is attached with all the details. We strongly encourage all members from all operators and areas (particularly current and ex labour hire members) to come along and share their experiences and catch up with the team

We will have special Guest Speaker, Mr Dan Repacholi, the Federal *Member for the Hunter* and *Chair of Select Committee on Nuclear Energy* in attendance. Dan is an ex Mt Thorley coal miner and has been instrumental in getting in place the same job same pay legislation.

We hope to see you and your workmate there.
